

INTENSIVE LEARN-TO-SWIM COURSES

HERE'S A QUICK WAY TO SWIM LIKE A FISH

Our intensive learn to swim courses are just what you'll need to get started or enhance your child's weekly tuition. It's the fast track route to success for those of you that want it done right here and right now and experience shows that people learn to swim better and quicker with a short intensive course than coming along once a week.

Every learning process depends on repetition and reinforcement. The advantage of a course of consecutive day lessons lies in the frequency with which the confidence building routines are practiced, the mind being concentrated entirely on the task in hand.

If you're looking to begin swimming, or want to quicken your child's learning then this is the quickest way you'll be able to do it.

Book your summer holiday course now:
